Wolfgang Keller

has successfully completed a free online offering of

Interactive Microbiology Session 2

For successful completion, participants were required to read online context and to collect, process, analyze, and interpret biological data. They learned and engaged in relevant practices of scientific inquiry on the question of how single celled microorganisms can robustly move relative to external stimuli - such as a photosynthetic cell moving towards a light source.

Prof. Ingmar Riedel-Kruse
Bioengineering, Schools of Engineering & Medicine
Stanford University

PLEASE NOTE: SOME ONLINE COURSES MAY DRAW ON MATERIAL FROM COURSES TAUGHT ON-CAMPUS BUT THEY ARE NOT EQUIVALENT TO ON-CAMPUS COURSES. THIS STATEMENT DOES NOT AFFIRM THAT THIS PARTICIPANT WAS ENROLLED AS A STUDENT AT STANFORD UNIVERSITY IN ANY WAY. IT DOES NOT CONFER A STANFORD UNIVERSITY GRADE, COURSE CREDIT OR DEGREE, AND IT DOES NOT VERIFY THE IDENTITY OF THE PARTICIPANT.
